

Revolutionize Financial Security with Akeyless Secrets Management

Take control of your financial security with Akeyless—effortlessly bridging multi-cloud and legacy systems while cutting costs and complexity.

The Challenge: Securing Complex Financial Environments

Financial institutions face growing security risks and compliance pressures as they manage multi-cloud environments alongside legacy systems.

Akeyless: The Future of Secrets Management for Financial Services

Simplify operations, cut costs, and strengthen security across modern and legacy systems.

Key Features

Multi-Cloud & Legacy Support: Seamlessly manage secrets across hybrid environments.

→ **Eliminate security silos and simplify operations across cloud and on-prem systems.**

Cost-Effective: Reduce total cost of ownership compared to traditional solutions.

→ **Enjoy enterprise-grade security without the enterprise-grade price.**

Easy to Use and DevOps-Ready: Intuitive interface, faster onboarding, a wide range of integrations, and minimal maintenance.

→ **Empower your teams with tools they can master quickly.**

➤➤ In an industry where security is non-negotiable, complexity can become a liability. Akeyless helps financial institutions stay secure, compliant, and agile without breaking the bank.

Hear from Industry Leaders

"With Akeyless, we now have a scalable secrets management platform that's enterprise-class. The fact that we have a cloud-first enterprise solution gives me confidence that Akeyless will scale as our business does."

—**Adam Hanson, Director of IT Security Architecture, Design and Testing, Constant Contact**

"I'd recommend Akeyless to security leaders, teams, and developers. It's a SaaS solution that doesn't know your secrets, the team is fantastic, and honestly, the cost makes a huge difference."

—**Richard Barretto, VP and CISO at Progress**

Compliance & Security Standards

Akeyless is proud to maintain world-class compliance and security standards, including:

FIPS 140-2

ISO 27001

SOC 2 Type II

**DORA
compliance**

**PCI DSS
compliance**

**GDPR
compliance**

Secure Your Financial Future with Akeyless
